

THE CORPORATION OF THE TOWNSHIP OF SEGUIN

BY-LAW No. 2008-105

“Being a By-law to prohibit or regulate the placing or dumping or removal of fill in areas of the Township of Seguin.”

This By-law applies only to shoreline areas (20 metres inland from the high water mark) and to land zoned Environmental Protection (EP).

The primary intent of this By-law is to protect and preserve water quality by prohibiting the placing or removal of fill in shoreline areas and on EP lands. EP zones, commonly including wetlands, are significant contributors to water quality. They are nature’s water filters due to their ability to remove harmful impurities from water before it enters the main body of a watershed. Further, wetlands are the breeding ground and home for many species of plants, fish, insects, animals, birds and wildlife.

This By-law recognizes the right of waterfront property owners to engage in normal landscaping activity on their waterfront property. However, this By-law prohibits any landscaping work that could significantly alter the grade or topography in a manner that increases the flow of surface water to neighbouring lands or the adjacent bodies of water.

There are no licences, permits or fees required with this By-law.

This By-law is flexible. Council may grant exceptions.

WHEREAS Section 142 of the *Municipal Act, R.S.O. 1990 c.M.45*, as amended, authorizes the Council of local municipalities to pass By-laws for prohibiting or regulating the placing or removal of fill of any kind in any defined area or areas in the Township of Seguin;

AND WHEREAS the Council of The Corporation of the Township of Seguin deems it desirable in the public interest to implement such a By-law for the purposes of:

- Preventing the erosion and sedimentation of the lakes and water bodies of the Township;
- Preventing the extensive topographical changes to the properties in the shoreline areas of the Township;

- Protecting and preserving the environmentally protected areas of the Township; and,
